

*Affordable comfort you can trust from the world's largest manufacturer of air conditioners.*

## 10 REASONS TO CHOOSE GREE HEAT PUMPS

### 1 ONE OUT OF 3 MADE BY GREE

- More than 80,000 employees,
- More than 50,000 engineers and technical workers,
- 77 production plants worldwide,
- 1,411 development and testing labs.

### 2 UNPARALLELED INNOVATION CAPABILITIES

- 115,460 patents,
- 61,346 invention patents,
- 152 research centers,
- 5 technology research centres.

### 3 TRUSTED WORLDWIDE

- GREE sold in 190+ countries,
- Over 36.1 billion CAD in revenue in 2022,
- Voted #1 Air Conditioner brand worldwide in 2022 by Euromonitor Intl,
- Ranked 331 in Forbes Global 2000 List in 2022.

### 4 PATENTED CORE TECHNOLOGIES

- 2-Stage / 2-Cylinder Compressor for Ultra-Heat™ Series capable of heating at low ambient temperatures of -30 °C or below.
- 3 DC Inverter Technology (compressor, outdoor fan motor, indoor fan motor).

### 5 PROFESSIONAL NETWORK OF DEALERS

Contractors working with GREE Canada are specifically chosen to ensure a professional customer experience and optimize unit performance.

### 6 OVER 25 YEARS OF HEAT PUMP EXPERIENCE

- GREE Canada is the number one source of GREE parts in Canada.
- Team of experienced technicians for optimal support.

### 7 LEADING IN-HOUSE WARRANTY FROM GREE CANADA

GREE Canada backs the reliability of its products with a warranty up to 10 years of warranty on parts and labour on select models.

### 8 FULL RANGE OF HIGH-QUALITY PRODUCT ASSORTMENT

From smaller residential appliances to large commercial heat pumps, GREE has manufacturing capabilities and expertise to make all types of reliable, high-quality HVAC products.

### 9 ISO 9001 QUALITY MANAGEMENT SYSTEMS AND ISO 14001 ENVIRONMENTAL MANAGEMENT SYSTEMS

- GREE manufacture energy-efficient MEPS-compliant equipment, and are accredited with ISO 14001 Environmental Management Systems.
- They also have proven quality manufacturing facilities with ISO 9001 Quality Management Systems. GREE's test facility screens all key components (compressors, fan motors, inverter drives) before being put on the production line, ensuring world-class quality.

### 10 HEAT PUMPS DESIGNED FOR CANADIANS, AND SERVICED BY CANADIANS

- GREE have designed its heat pumps to provide efficient heating in the coldest and harshest climates, with the highest quality and reliability in mind.
- Thanks to GREE Canada's network of professional technicians and installers, Canadians who choose GREE Canada can expect comfort, energy efficiency and peace of mind for years to come!

Many household names have manufacturing partnerships with GREE, including:

DAIKIN  
CARRIER

TRANE  
GENERAL ELECTRIC
